art.CFB/HR.. LONG SERIES ROTATING BRONZE FLANGE NUTS TR20/60 accessorised for transmitting drive.

NUT MATERIAL: Bronze CuSn12 UNI 7013-72 (R 300 N/mm^2, HB 90/100).
MATERIAL: Paired bevel gears ratio 1:1 and 1:2, simple Pinions and double, cogwheels, C45 UNI 7847
The above **CFB/HR..** are fitted in the mobile Platforms inside of Supports **LXR** of the Rotary nut series and are available individually as spare parts.
The Bevel gears, the Pinions, the Cogwheels, **on request can be supplied with nitriding surface treatment** to guarantee less wear.
Before asking for the nuts or other spare part components we suggest considering the possibility of sending the complete Platform or support to *Bimeccanica* who will perform a complete overhaul replacing any worn parts.

Rotary nut with paired bevel gears ratio 1:1 **art.CFB/HR..+CC1:1**

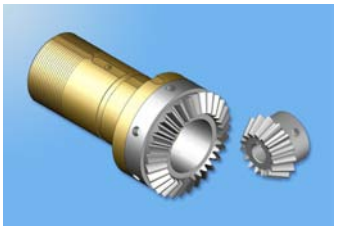

SPARE PARTS FOR ROTARY SUPPORTS:

Nuts with RIGHT thread available from stock; nuts with LEFT thread (special) made to order.
