Assembled DSA support

DBA/DNA/DSA supports - exploded diagram

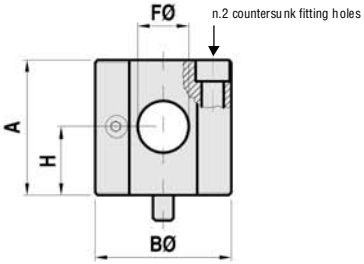

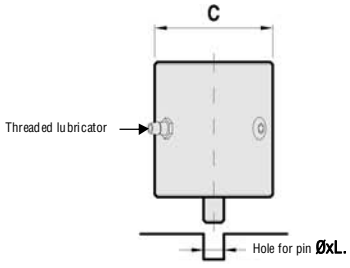

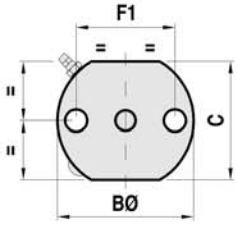

> **The above supports are ready for accessories as detailed on pages 88-89.**

> **The DBA supports, when used with a stainless steel trapezoidal screw and the DNA supports when used with an anodized aluminium alloy or stainless steel screw, can be supplied with stainless components upon request.**

> Complete diagrams for fitting to the machine are shown on page 65/R

> **C = Nett size of the support excluding accessories like ABA, rings, etc.**

> **Approximate weight with accessories and fitting bolts.**

> The above supports shown in the assembled **Compact Simple** Groups (see previous pages) for which it is possible to calculate the total weight by adding them to the weight of the TR screw using the table on page 65/D.

> **To comply with safety regulations, the use of the supplied pin and the fitting nuts and bolts is obligatory, as is ensuring tapping of the thread on materials of adequate thickness and resistance, see page 65/D.**
